Game instructions

Tournament

You play 3 rounds, one per game, in the following order: Game 1, Game 2, Game 3 of these instructions. At the end of each round, the winner receives 10 points, the runner-up receives 7 points, and the third-placed player receives 6 points, and so on, down to 3 points per player (for six players) when playing with six players.

There are no ties for first place: only one player receives the 10 points required to win. In all games, however, players from second place onwards may share the same score.

When playing a tournament, the target score for each round is reduced: 25 points for the first game, 21 points for the second and 2 points for the third. In the event of a tie at the end of the tournament, the winner is the player who had the most points after the second game. n.2 “Everyone together” has already been declared the winner.
