

Dice Set “German”, 12 pcs.

20 mm, made of plastic with rounded edges/corners

Instructions

This set of dice is ideal for practising in a fun way during German and foreign language lessons. To make them easier to distinguish visually, we have designed the dice in different colours for each version.

This allows many areas of grammar, such as the use of articles, parts of speech or identifying cases, to be reinforced and revised. Alternatively, the question words can be used in conjunction with verbs or, where appropriate, even with pictograms.

Also ideal for teaching German as a second language!

The game can be played with one or more dice. We have deliberately avoided setting fixed rules so that the game can be tailored to the specific target group. It is therefore an open-ended game system.

Great fun for young and old alike!
